Subject: **Continuation of NABL accreditation**

Dear Sir,

NABL has reviewed the Desktop Surveillance documents submitted by the laboratory and is pleased to recommend continuation of accreditation in accordance with ISO/IEC 17025:2017 in the disciplines of Mechanical calibration as per the existing scope.Â

Kindly treat this letter as a reminder for the renewal of accreditation, as the current Accreditation Certificate (CC-2582) of your calibration laboratory is valid till 13/02/2023 only. Further, please be informed that your laboratory can not use the NABL Symbol (claiming NABL accreditation) once the accreditation is expired till it gets renewed.

Your laboratory is advised to apply (through NABL Web Portal only) for the renewal of accreditation at-least six months prior to the date of expiry of this accreditation certificate. However, you may like to refer the various NABL Documents pertaining to the accreditation process. The latest versions of all the relevant documents are available on our web-site.

Yours Sincerely,

Mamta Bharti
